

Dear Colleagues,

It is our great pleasure to invite you to the **IBDNET TALKS**, a training curriculum for Swiss gastroenterology and hepatology fellows consisting of four training modules. These state of the art lectures will be broadcasted through interactive teleconference.

You will have the possibility to register for each module individually, which enables participants to access the training module slides and receiving the respective certificate of attendance and SGG core credit points.

We are looking forward to an interesting curriculum of talks throughout many centres in Switzerland.

Yours sincerely

Michel Maillard
